

Metalmarinha – Comércio Internacional de Resíduos SA, specialized in trade and management of metal waste and **Metalmarinha Electronics Lda**, dedicated to the recovery and treatment of waste electrical and electronic equipment (WEEE) have implemented an Integrated Management System that will be conducted according the following principles:

- Improve the management and recovery of all waste allocated to your Licenses, with regard to collection, sorting, storage and dispatch activities to final destination, including waste from its work and maintenance;
- Ensure compliance obligations, namely: legal and regulatory requirements, NP EN ISO 9001:2015 and NP EN ISO 14001:2015 standards and others that organizations subscribe to;
- Provide a quality service that meets the requirements of Customers and Other Stakeholders: namely: administration, business partners, employees, official entities and others that organizations identify;
- Ensure human, technical and financial resources appropriate to the context of the organisation and with environmental protection as a fundamental principle, including pollution prevention, waste production reduction and resource use consumption;
- Ensure the necessary skills to enable proper action in the event of an emergency, through training, simulations and regular maintenance of equipments and infrastructures;
- Promote safe and healthy working conditions to prevent accidents and work diseases;
- Focus on continuous improvements, addressing challenges and opportunities, and improve the effectiveness of the Quality and Environmental Management System and the environmental performance;
- Encourage suppliers and business partners to adopt principles in line with METALMARINHAS's quality, safety, and environmental requirements.
